Report on Fire Safety Precautions Program conducted by MITS-NCC on 12-08-2017 with the help of Madanapalle region fire station.

Fire Safety Precautions Program was conducted by MITS-NCC on 12-08-2017 with the help of Madanapalle region fire station. NCC cadets participated in this awareness program and learned how to control the gas cylinder at the time of fire and how to control and handle the cylinder at the time of gas leakage. Senior wing girls participated in gas cylinder control practice sessions.

In second half time the fire safety professionals demonstrated how to protect people at the time of disaster and risky situations. Senior Division boys participated in practice sessions.
