Report on
Teachers' Day celebrations - 2016
5 September 2016

Submitted by: Dr. K. V. V. Raaju – NSS Programme Officer & Asst. Professor, Dept. of Management Studies, MITS.

Teachers' Day :

It is a scintillating experience for educational institutions to commemorate Dr. Sarvepalli Radhakrishnan's birth anniversary that reflects teachers' contribution to the society. Since 1962, India has been celebrating Teachers' Day on 5th September as a symbol of tribute and honor to the contribution made by teachers to the society. Teaching is a noble profession which is respected among society. Teachers have played an important role in the overall development of a person. They are capable to influence and mould a student's life positively. Every student celebrates this day to encourage and support the contribution of his or her teacher. Children are the country's future, hence they need to be positively nurtured and that is done best by teachers as children get inspired by their teachers. Teachers are the architects of our nation who produce eminent scientist, doctors, engineers and honourable professionals etc., Teachers enlighten students and shape their career.

MITS celebrated Teachers Day on 5th September, 2016 with much pomp and revelry. Faculty, staff and students were present.

The NSS program officer DR. K. V. V. Raaju, Dr. Chandrakanta Sahoo and students paid tributes to Dr. Saravpalli Radhakrishnan. Raaju in his speech at the celebration put more emphasis on moral and ethical values, which he expected the students to follow. He also wanted the teachers to be role model for the students. He urged them to lead a healthy and disciplined life and create a healthy environment. R. Chandrakantha Sahoo in his speech stressed that "If the teacher is molded properly then the society will also be molded properly". They sacrifice their life, soul for the upliftment of the students by imparting not only knowledge but also wisdom. Knowledge can be obtained through various media like book, novels, newspaper and internet. But students can acquire wisdom only through teachers. The Principal congratulated the teachers on the eve of the Teachers Day. Then a few teachers gave delivered and shared their views and experiences.
